

focaccia slices

The traditional tall focaccia is cut with cutting-edge machinery: ultrasound blades make precise cuts without waste or crumbs.
The focaccia is thus cut in slices of various sizes, ready to be filled or simply served warm. The thawed product is ready for use or it can be cooked in the oven or stove for 2-3 minutes.
The products are packaged in heat-shrinking packages and labelled or placed in a single bag. This product is ideal for the vending and Food Service channels.
